GreasePocket

GreaseMonkey/Kit for iPhone

Ishan Anand, Ajay Kapur
iphonedevcamp2@ishan.org

Metadata

- Started Friday night
- Will be Open Source

Rewrite the (Mobile) Web

- Change existing webpages to your needs
  - Add new features
  - Fix Bugs

- Inspired by
  - GreaseMonkey
  - Bookmarklets

Basics

- Scripts written in JavaScript
- Run automatically
- On-the-fly changes to webpages
- Expose device functionality*
    - Location, etc.

* = Exposes security holes

Demo

Future

- AppStore?
- Expose
  - Accelerometer?
  - Cross Domain XHR?
- Not full GreaseMonkey spec
  - Possible but...
- Security Issues
  - Similar to GreaseMonkey faced

Future

- OpenSource
- Contact if interested in working on
    - Userscripts (JavaScript)
    - Greasepocket (Cocoa)

greasepocket@ishan.org

Next Mobile Web

- Great team, great investors
- We're looking for a few good developers
  - Server: Ruby, Scaling, etc.
  - Phone: iPhone, Symbian, MS
- Also, iPhone mini-projects
  - Obama App vs. McCain App
